Climate protection from an ecological perspective

SZÉKESFEHÉRVÁR

Performed by: Gábor Csete

o nature reserves: 462 ha

Székesfehérvár

o agricultural desert or nature?

o ecological agriculture

- o ecological corridors
- o mosaic habitat systems
- o nature conservation zones

o organic grassland management:

86 ha

o forests:

60 ha

Sóstó Nature Conservation Area

- o an area of 218 hectares
- o locally and nationally protected
- o diverse habitat types
- o outstanding biodiversity
- o nature-based maintenance
- o the living green heart of the city

Sóstó Nature Conservation Area

- o an area of 218 hectares
- locally and nationally protected
- o diverse habitat types
- o outstanding biodiversity
- o nature-based maintenance
- the living green heart of the city

Aszal Valley Nature Conservation Area

- o 90 ha
- o locally protected area
- o natura 2000 area
- o protected since 2015

Jancsár Valley Nature Conservation Area

- o 18 ha
- o locally protected area

Máriamajori Forest and Nagy Valley Nature Reserve

- o 136 ha
- o locally protected area
- o Aceri tatarico Quercetum

Back to nature!

- a swallow captures up to 2-3 kg
 of mosquitoes per season
 during a breeding season
- o it will continue in 2023
- o in good years birds produce up to3 broods

- o bird feeding
- bird watering
- breed boxes

KÉRLEK, NE ETESS MINKET!

A VÍZIMADARAK ETETÉSE NEM SEGÍT A MADARAKNAK. VESZÉLYBE SODORJA ÉS MEGBETEGÍTHETI ŐKET!

A vízimadarak életmódja és téli túlélési szabályai eltérnek az etetőket látogató énekesmadarakétól.

MIÉRT NE ETESSÜNK:

A vízimadarak etetése egy öngerjesztő folyamat.

MAGYAR MADÁRTANI ÉS TERMÉSZETVÉDELMI EGYESÜLET | WWW.MME.HU

- o insect hotel
- o shelter for useful species
- o organic plant protection
- o breeding sites

 biological mosquito control and plant protection by injection

o pollinators 50% destroyed

o bee pasture

o green facades

But what is most important to the human being for life?

- o without oxygen ~ 1 minute
- o without water ~ 1 week
- o without food ~ 1 month

Thank you for your attention!
